- The Reports of Decisions is designed to contain copies of all orders issued by credentialing authorities within the Department of Regulation and Licensing from November, 1998 to the present. In addition, many but not all orders for the time period between 1977 and November, 1998 are posted. Not all orders issued by a credentialing authority constitute a formal disciplinary action.

The Department is not responsible for notifying prior requesters of updates, modifications, corrections or deletions. All users have the responsibility to determine whether information obtained from this site is still accurate, current and complete.
- There may be discrepancies between the online copies and the original document. Original documents should be consulted as the definitive representation of the order's content. Copies of original orders may be obtained by mailing requests to the Department of Regulation and Licensing, PO Box 8935, Madison, WI 53708-8935. The Department charges copying fees. *All requests must cite the case number, the date of the order, and respondent's name as it appears on the order.*
- Reported decisions may have an appeal pending, and discipline may be stayed during the appeal. Information about the current status of a credential issued by the Department of Regulation and Licensing is shown on the Department's Web Site under "License Lookup." PROCEDURAL HISTORY

The parties in this matter agree to the terms and conditions of the attached Stipulation as the final decision of this matter, subject to the approval of the Veterinary Examining Board. The Board has reviewed the attached Stipulation and considers it acceptable.

Accordingly, the Board in this matter adopts the attached Stipulation and makes the following:

## FINDINGS OF FACT

1. Meghan Hessler, D.V.M. ("Respondent") was born on June 26, 1962, and is licensed to practice veterinary medicine in the state of Wisconsin pursuant to license number 4826. This license was first granted on June 19, 1998.
2. Respondent's most recent address on file with the Wisconsin Veterinary Examining Board is 801 Hanksfield Place, Prairie du Sac, WI 53578.
3. At all times relevant to this proceeding, Respondent was working as a veterinarian at Memorial Drive Veterinary Clinic, Manitowoc, Wisconsin.
4. Hughy was a male bichon frise dog born October 1, 1993.
5. Hughy was presented to Respondent on July 14, 2006, for evaluation because he was straining at urination and there was blood in his urine. Respondent obtained an abdominal radiograph of Hughy and diagnosed uroliths.
6. On July 20, 2006, Respondent performed a cystotomy, back flushed the urethra, and removed several stones from the bladder. Respondent obtained two post-operative radiographs, in different views. One of the films showed a urolith remaining in the urethra, but Respondent did not recognize it.
7. The owner took Hughy to a different veterinarian on August 7, August 9, and August 11, 2006, for treatment of an infected incision.
8. From October 29 through November 1, 2006, Hughy again showed straining with urination, with blood in his urine. Additionally, he appeared to have pain with bowel movements, and there was blood in his stool.
9. Hughy was seen by Dr. P.S., also a veterinarian at Memorial Drive Veterinary Clinic, on November 1, 2006. She had two radiographs taken, and diagnosed a stone in the urethra half way between the bladder and the penis. Dr. P.S. told Hughy's owner that this was a new stone, and recommended waiting until the stone had become an obstruction and an emergency situation, then open the urethra and remove the stone. Dr. P.S. prescribed an antibiotic and a medication for pain control.
10. On November 3, 2006, the owner called Memorial Drive Veterinary Clinic and requested all of the records and radiographs so she could take them to another veterinary clinic for a second opinion. Respondent spoke to the owner, and said that having looked at the radiographs again, she had made a mistake and missed the stone in the first surgery.
11. On November 7, 2006, a veterinarian at a different veterinary clinic performed an operation and removed the stone.
12. Respondent's records for Hughy for the period do not contain documentation of a complete physical examination at any time, and do not indicate that Respondent ever did a pre-operative physical. Respondent's records make reference to the type of anesthesia provided to Hughy during the operation of July 20, 2006, and mention that some post-operative pain control was attempted, but her records do not contain sufficient detail to demonstrate that it is more likely than not that adequate post-operative pain control was achieved.

## CONCLUSIONS OF LAW

2. The conduct described in paragraph 12, above, constitutes a violation of Wisconsin Administrative Code § VET 7.03.
